

MODERNIZE YOUR LAUNDRY ROOM!

EAST COAST LAUNDRY IS PROUD TO OFFER THE LAUNDROWORKS CASHLESS CARD SYSTEM

HOW IT WORKS

Balance is stored on a contactless smart card.

Residents add value to the balance at the Value Add Center simply by placing their card into the card holder (1), selecting a value (2), and using the PINpad (3) to pay with their Credit/Debit cards.

Residents start laundry machines simply by placing the smart card onto a machine card reader, which debits the cycle cost and starts the machine.

KEY BENEFITS SUMMARY

- + Exceptional convenience for residents and staff
- + No coins! Theft and vandalism are practically eliminated
- + Streamlined resident support with the ability to remotely trace transactions, provide refunds/bonuses, and more...

- + Faster response to equipment problems through remote diagnostics
- + Web-based reporting of all transactions and revenue
- + Residents love our system! They can see real-time machine availability on a website and receive SMS text notifications when their laundry is finished

BOTTOM LINE: *Higher laundry room revenue, better service, happier residents*

*Designed and made in Canada
Installed in 500+ laundry rooms*
